

New Web Site and On Line Shop

We have recently upgraded our web site: www.armstrongmobilevets.co.uk. We have added an information page where you can view this and previous newsletters and also information sheets on selected topics. In addition we have a new on-line shop where you can access a wide range of pet foods and products. This has improved the range of foods we can order for you and we are delighted to offer free delivery where needed.

E-mail

We are still trying to gather e-mail addresses for more of our clients. We have had some problems with our e-mail account and after our last request lots of our clients experienced difficulties sending their details! We have since changed our e-mail address and would ask that you try again and let us have an e-mail address if you have one.

New e-mail address: ernest.armstrong@btconnect.com. We can also be contacted via our web site.

Help for Firework Sufferers

In addition to the products and sedatives we have been able to offer in previous years there is now a new product on the market designed to reduce anxiety in pets. It can be used in a range of stressful circumstances such as the firework season. It is a palatable capsule and should be started 1 – 2 days before all the bangs begin and be given daily till the end of the period. Zylkene can be used in dogs and cats. Please call if you would like to try some. See our website for information on coping with pets and fireworks. For those that don't have access to the internet please ask and we can let you have a copy of the firework fact sheet.

Credit Card Payments

We have invested in another credit card terminal and telephone line so that we do not have to rely on a mobile signal for our hand held machine. Those of you who have stood in the rain entering your PIN will no doubt be delighted to hear the news of the new arrival. Louise should be able to take your telephone card payments much more efficiently. Thank you for your patience in coping with our poor signal at Breadstone.

New Veterinary Nurse

Our team is enhanced by the arrival of Joy Mundy, a qualified veterinary nurse with many years experience not only in this country but in Australia too. Joy will be out and about in the practice van as well as assisting in our surgery.
